

Accuro EMR for Family Practitioners

Accuro addresses each specialty through configurability and practicality. **Accuro EMR** was designed with solutions that can be tailored to the unique workflow of a Family Practitioner. These solutions are meant to help you, the in-demand clinician, save time.

With **Accuro EMR**, Family Medicine Clinics can:

- Report on clinical and administrative data
- File documents electronically
- View virtual patient charts within seconds
- Receive electronic lab results (where available)
- Complete referral letters quickly with customizable templates
- Use Chronic Disease Management templates & toolkit interface
- Send messages to staff and colleagues
- Access their system through the Internet

Accuro EMR offers a database of 500+ electronic forms used by physicians on the system, including other Family Practitioners, for you to use to automate your collection of clinical data. For example, you could download laboratory requisition forms to order diagnostic testing for your patients.

Create your own forms that will automatically include patient and physician information. You can customize data entry by setting up electronic check boxes, drop-down lists, and or text boxes. You will be able to draw, type, voice dictate, or handwrite the responses onto these personalized forms.

Accuro EMR allows you to automatically and securely attach your clinical notes to the patient's virtual chart.

Please contact Optimed at [1.866.454.4681](tel:1.866.454.4681) to find out more information about how Accuro can enhance your specialized workflow and to receive our reference list of other physicians in your field.
