

Accuro EMR for Gynecologists & Obstetricians

Accuro addresses each specialty through configurability and practicality. **Accuro EMR** was designed with solutions that can be tailored to the unique workflow of a Gynecologist and Obstetrician. These solutions are meant to help you, the in-demand specialist, save time.

With **Accuro EMR**, Gynecology and Obstetrics Clinics can:

- Complete Prenatal forms electronically
- Capture and store images
- File documents electronically
- Use electronic OR booking and lab requisition forms
- Utilize electronic registration forms
- Complete consult letters and send them directly to referring physician
- Receive and graph electronic lab results
- Access their system through the Internet
- Save referral letters directly to the chart

Accuro EMR offers a database of 500+ electronic forms used by physicians on the system, including other Gynecologists and Obstetricians, for you to use to automate your collection of clinical data. For example, you could download a Prenatal Report or a Tubal Ligation Consult form.

Create your own forms that will automatically include patient and physician information. You can customize data entry by setting up electronic check boxes, drop-down lists, and or text boxes. You will be able to draw, type, voice dictate, or handwrite the responses onto these personalized forms.

Accuro EMR allows you to automatically and securely attach your clinical notes to the patient's virtual chart.

Please contact Optimed at [1.866.454.4681](tel:1.866.454.4681) to find out more information about how Accuro can enhance your specialist workflow and to receive our reference list of other physicians in your field.
