

Accentus MD Solutions – Document Imaging Services

EMR or Portal Access to Charts – Anytime, Anywhere

Accentus MD delivers industry leading document imaging services that meet the specific scanning and storage requirements of doctors and clinicians.

Designed to help reduce administrative costs, boost office efficiencies, and free-up much needed space, Accentus MD document imaging services provide healthcare professionals with an efficient and cost effective path away from paper-intensive and minimally automated environments.

Accentus MD document imaging services are supported by state-of-the-art scanning, indexing, and content management technologies and can seamlessly integrate with leading EMR systems. In the absence of an EMR, Accentus provides a secure storage and retrieval option, with 24-hour chart access through an easy-to-use, secure physician portal supported by Accentus' content management software, eDoc ECM.

Regardless of your EMR strategy, Accentus has the expertise and hands-on experience to provide a document imaging solution to meet your business objectives.

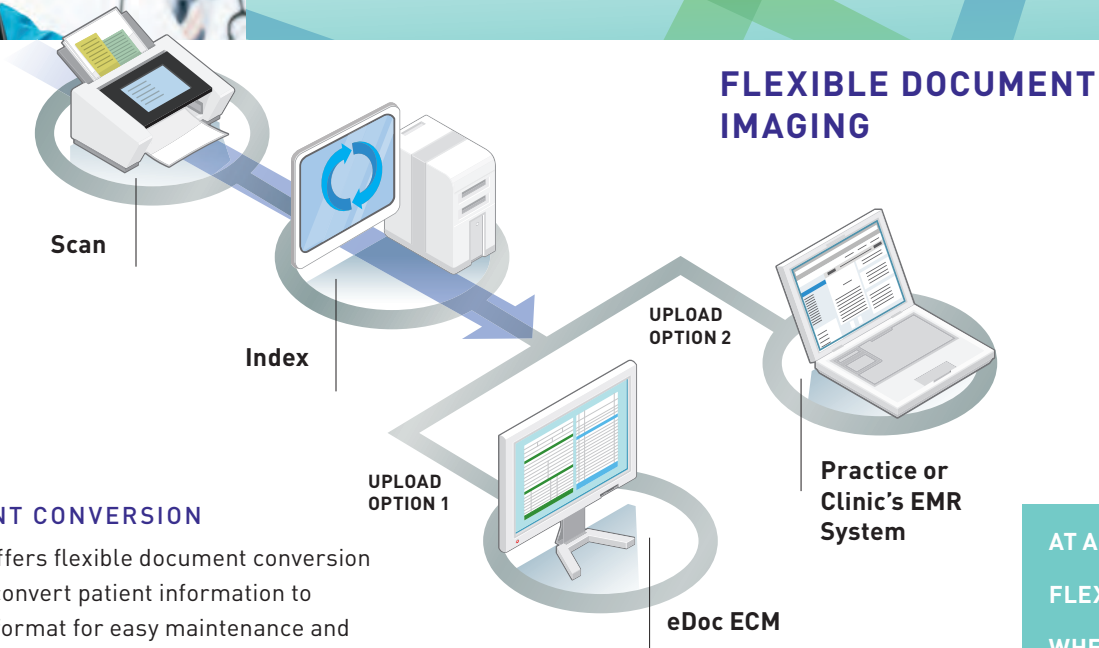

“IN ONE MONTH, ACCENTUS SCANNED 20,000 PATIENT CHARTS AND UPLOADED FULLY INDEXED FILES TO OUR NEW EMR SYSTEM. THEY CAME HIGHLY RECOMMENDED, PROVIDED EXPERT LEADERSHIP AND HANDS-ON EXPERIENCE EXPEDITING THE AUTOMATION PROCESS WITHOUT DISRUPTING THE CLINICS DAY-TO-DAY OPERATIONS.”

DOCUMENT CONVERSION

Accentus offers flexible document conversion options to convert patient information to electronic format for easy maintenance and access.

- **PRACTICES/CLINICS WITH AN EMR**
Accentus can scan, index, and upload patient charts directly into leading EMR systems. Chart content can be indexed to match EMR categories for easy search and retrieval, content management, and sharing.
- **PRACTICES/CLINICS WITHOUT AN EMR**
Accentus can scan, index, and store patient charts in the eDoc ECM. Electronic charts are accessible through an easy-to-use physician portal by all members of your medical team on-demand – anytime, anywhere. If you decide to move to an EMR, Accentus will simply and seamlessly upload electronic charts stored in the eDoc ECM directly into your new EMR system.
- **ARCHIVAL STORAGE**
Accentus can convert and store your archived patient data in electronic format reducing storage costs and freeing up valuable clinic space.

DAY FORWARD SCANNING

Medical practices accumulate piles of paper on a daily basis. Whether using an EMR or not, Accentus provides real-time scanning and indexing options that minimize costs and maximize business efficiencies without disrupting established office workflows.

LONG-TERM BENEFITS

- **DIGITAL CAPTURE AND STORAGE OF INFORMATION** in a secure, searchable electronic database for easy access and information sharing.
- **REDUCE ADMINISTRATIVE COSTS** associated with the handling and sharing – photocopying, faxing, mailing – of paper files.
- **AUTOMATED BACKUP** of patient records to prevent data loss and seamless disaster recovery.
- **INCREASED SECURITY** to safeguard sensitive patient data through the use of encryption and password protection technologies to prevent unauthorized access.
- **IMPROVED CARE** through instant availability of critical patient information.

AT ACCENTUS WE PROVIDE FLEXIBLE SOLUTIONS, WHETHER YOU ARE A CLINIC, GROUP PRACTICE OR AN INDIVIDUAL PHYSICIAN WITH OR WITHOUT EMR INTEGRATION WE HAVE A SOLUTION TO MEET YOUR SPECIFIC REQUIREMENTS.
